Oguzie-Ibeh Alexander

Hiring Manager,

Enyata,

371 Agege Motor Road Challenge Plaza,

Challenge Bus stop Papa Ajao,

Lagos, Nigeria

Dear Hiring Manager,

I am writing to express my interest in the Backend Engineering position at Enyata. I came across the job posting and after reviewing the requirements, I am confident that my skills and experiences make me a strong candidate for this role.

I have over 3 years of professional software development experience, with a focus on Node.js. My love for writing low-level codes closer to the hardware and graphics rendering codes, aligns perfectly with your need for a Backend Engineer who can operate effectively as an individual and as part of the Engineering team.

In my previous roles, I have demonstrated strong problem-solving skills and an understanding of software architecture, principles, and design patterns. I have hands-on experience building high-performance applications and have worked extensively as a Full-stack developer. My understanding of data structures, algorithms, SQL and No-SQL databases will allow me to contribute effectively to your team.

In addition to my technical skills, I possess excellent communication skills, both in technical and business environments. I am capable of multitasking and meeting tight deadlines. My experience working with other frameworks will be beneficial in this role. I am known for my organizational skills, planning abilities, and positive attitude even in challenging situations.

I am excited about the opportunity to bring my unique blend of skills and experience to your team and I am eager to contribute to your ongoing success. Thank you for considering my application. I look forward to the possibility of discussing this exciting opportunity with you.

Sincerely, Alexander
