Application as a Software QA Tester
Civey GmbH
Berlin, Germany

Dear Recruiting Team,

 I am Alex and I'm a huge enthusiast when it comes to software development and testing. I have managed to secure a bachelor's degree in engineering. during my free time you'll often see me tinkering on low-level software technologies and/or brush up on current and new skills in these respective field. I have a strong niche for low-level systems programming, I also have a strong understanding of software systems architecture and design and enjoy building low-level systems. I possess a strong troubleshooting and problem-solving skills with an analytical mindset. I self-taught myself many skills, and actively seek projects that require me to work outside my comfort zone in my spare time, I am also active on GitHub https://github.com/harlexkhal and enjoy participating in hackathons. I would love the opportunity to apply my skills and experience and also learn in a professional setting with an organization that's doing amazing things, which is why this position is so attractive. I am a quick learner with a passion for development and computer science at all ends of the spectrum, and I am confident I will be an asset to your organization.

Please find my attached resume for your considerations. You are welcome to view my portfolio at https://harlexkhal.github.io. Thank you very much for your time. I look forward to hearing from you regarding next steps. Sincerely,

Alexander Ibeh
